# Logging Cycle Counts to Predict Part Replacement

## Creating an Annual Garage Door Maintenance Calendar

### Logging Cycle Counts to Predict Part Replacement

In the realm of maintenance and asset management, predicting when a part needs replacement is crucial for ensuring operational efficiency and minimizing downtime. One effective method for achieving this is through logging cycle counts. This approach involves tracking the number of cycles or operations a component undergoes over its lifespan. By analyzing these cycle counts, maintenance teams can anticipate wear and tear, thereby scheduling replacements before failures occur.

The concept of cycle counting is not new; it has been employed in various industries for decades. However, advancements in technology have made it more accessible and precise than ever before. Modern sensors and data logging systems can automatically record each cycle a component undergoes, providing real-time data that can be analyzed to predict future needs.

One of the primary benefits of logging cycle counts is its ability to provide a clear picture of a components usage patterns. For instance, in manufacturing equipment like presses or conveyors, each operation represents a cycle. By logging these cycles, engineers can identify patterns such as increased usage during peak production periods or decreased usage during maintenance windows. This information is invaluable for planning proactive maintenance activities.

Moreover, cycle counting helps in identifying components that are approaching their end-of-life sooner than expected. For example, if a machine part typically lasts for 500 cycles but starts showing signs of wear after only 300 cycles due to increased load or improper use, logging this data allows for timely intervention. This proactive approach not only extends the lifespan of the equipment but also reduces the risk of unexpected breakdowns.

Another advantage is cost savings. Replacing parts before they fail can prevent more extensive damage and reduce repair costs significantly. Additionally, by avoiding unplanned downtime, businesses can maintain productivity levels and meet production targets without interruptions.

However, implementing a cycle counting system requires careful planning and execution. It involves selecting appropriate sensors and data logging systems compatible with existing machinery. Training staff on how to interpret the logged data accurately is also essential for making informed decisions about part replacements.

In conclusion, logging cycle counts to predict part replacement is a strategic approach that enhances maintenance practices across various industries. By leveraging real-time data on component usage patterns and wear rates, organizations can optimize their maintenance schedules effectively while minimizing costs associated with unscheduled repairs or replacements due to failures caused by excessive wear-and-tear over time . Embracing this method ensures that assets remain reliable throughout their operational life span thus contributing towards overall business continuity & profitability .

## **Seasonal Adjustments for Garage Door Operation**

### **About Torsion spring**

A torsion springtime is a spring that functions by twisting its end along its axis; that is, an adaptable elastic things that shops power when it is turned. When it is twisted, it puts in a torque in the opposite instructions, symmetrical to the amount (angle) it is turned. There are different types: A torsion bar is a straight bar of metal or rubber that undergoes turning (shear stress and anxiety) regarding its axis by torque used at its ends. A more delicate form utilized in delicate instruments, called a torsion fiber includes a fiber of silk, glass, or quartz under stress, that is twisted regarding its axis. A helical torsion spring, is a metal rod or cable in the shape of a helix (coil) that undergoes turning about the axis of the coil by sideways forces (bending minutes) applied to its ends, turning the coil tighter. Clocks make use of a spiral injury torsion springtime (a form of helical torsion springtime where the coils are around each other rather than piled up) occasionally called a "clock spring" or informally called a mainspring. Those sorts of torsion springtimes are likewise utilized for attic room stairways, clutches, typewriters and various other gadgets that require near consistent torque for large angles or perhaps numerous transformations.

- Indiana county number 45
- Second most-populous county in Indiana

**Lake County** is a county located in the U.S. state of Indiana. In 2020, its population was 498,700,<sup>[9]</sup> making it Indiana's second-most populous county. The county seat is Crown Point.<sup>[10]</sup> The county is part of Northwest Indiana and the Chicago metropolitan area, and contains a mix of urban, suburban and rural areas. It is bordered on the north by Lake Michigan and

contains a portion of the Indiana Dunes.<sup>[11]</sup><sup>[12]</sup> It includes Marktown, Clayton Mark's planned worker community in East Chicago.<sup>[13]</sup>

## History

[edit]

## Early settlement

[edit]

Originally inhabited by the Potawatomi and generations of indigenous ancestors, Lake County was established by European Americans on February 16, 1837.<sup>[2]</sup> From 1832 to 1836 the area that was to become Lake County was part of La Porte County.<sup>[14]</sup> From 1836 to 1837 it was part of Porter County.<sup>[14]</sup> It was named for its location on Lake Michigan.<sup>[15]</sup> The original county seat was Liverpool, but in 1840 Lake Court House, later renamed as Crown Point, was chosen.<sup>[16]</sup>

Lake County's population grew slowly before the 1850s. Construction of railroads to link Chicago to the rest of the country stimulated rapid development, and tens of thousands of settlers and immigrants bought land in the region. Small-scale industrialization began, but was primarily relegated to the northern coast of the county, where it could take advantage of the railroads along the coast and shipping on the Great Lakes. The 1900 Census gives a population of 37,892 residents.

## Industrialization and immigration

[edit]

Inland Steel Company established a plant in East Chicago in 1903 and U.S. Steel founded one in Gary in 1906; with industrial jobs the demand for labor associated with industrial jobs, the

county's population exploded. Immigrants poured into the area from all over Central and Eastern Europe (there was also a smaller Mexican immigrant community). In addition, both black and white migrants came from many regions of the United States, particularly Appalachia and the South. Mostly rural blacks went north in the Great Migration, seeking both industrial jobs and escape from Jim Crow violence and disenfranchisement in the South.

By 1930, Lake County's population surpassed 260,000, with first- and second-generation Americans constituting a majority of the population. The second wave of the Ku Klux Klan gained a large following here in the 1920s, as it did for a time in the rest of Indiana. The KKK organized against the numerous European immigrants, who were mostly Catholic. While the steel industry reigned supreme, other industries also found the county to be an ideal location for cheap land and well-developed transportation networks, such as automobiles, oil, chemicals, consumer goods, food processing, and construction supply companies.<sup>[17]</sup>

The Great Depression was devastating to Lake County, as it was to other areas with economies based on heavy industry. The Depression, combined with industrial strife, changing demographics, and unionization, caused a realignment of politics in Lake County. It became a stronghold of the Democratic Party; Lake County has supported the Democratic nominee for president in every election since 1932 (exceptions occurred in 1956 and 1972). Indiana's 1st congressional district has elected Democratic candidates in every election since 1930.

World War II restored prosperity, as industry revived to support the war effort. Good economic times continued into the 1970s. During this period, unions helped industrial workers gain middle-class wages. In addition to attracting refugees and immigrants from Europe, black Americans and Mexicans migrated here in the postwar period in even higher numbers than in the 1910–1930 period. As minority populations exploded in such industrial cities as East Chicago and Gary, racial tensions surfaced again. Following construction of state and federal highways, development of cheaper land provided newer housing to middle-class people who could afford it. Both whites and established black families moved out of the aging industrial cities.<sup>[17]</sup>

# Recent history

[edit]

Lake County's population peaked at 546,000 in 1970. Severe industrial decline took place during the 1973–1991 period, brought on by foreign competition, new management philosophies that called for major workforce reductions, and productivity gains from technology. The decline was particularly intense in the steel industry: steel employment exceeded 60,000 in the 1960s, and declined progressively to just 18,000 by 2015. Lake County's population declined 13% to bottom out at 475,000 in 1990.

The industrial decline of the 1980s cast a long shadow over Lake County: the county did not regain the level of employment it had in 1980 until 1996, after which the employment level roughly flatlined. The county's economic output peaked in 1978, and has not since recovered, remaining 15–20% below the peak after adjusting for inflation. As prosperity declined, so did the immigration that powered the county's explosive population growth before 1950: per the 2000 census, only 5.3% of Lake County's residents were foreign-born, compared to over 11% for the United States as a whole.<sup>[18]</sup>

The population recovered somewhat during the 1990s and 2000s, as the local economy adjusted. Suburban growth has also been driven by commuter populations of workers who are employed in Chicago and commute via expressways or the South Shore Line. In 2007, it was estimated that 44,000 workers commuted from Lake County, Indiana, to Chicago for work.<sup>[18]</sup> The decline of industrial cities and growth of suburbs has been so sharp, that by 1990 a majority of the county's population lived outside of the four traditional industrial cities. Lake County still continues to struggle with urban decline and poverty, suburban sprawl and traffic jams, and a stagnating population.<sup>[17]</sup>

## Geography

[edit]

According to the 2010 census, the county has a total area of 626.56 square miles (1,622.8 km<sup>2</sup>), of which 498.96 square miles (1,292.3 km<sup>2</sup>) (or 79.63%) is land and 127.60 square miles (330.5 km<sup>2</sup>) (or 20.37%) is water. It is the second-largest county in total area in Indiana, but has the largest water area of all 92 counties.<sup>[19]</sup>

The northern and southern portions of the county (north of U.S. 30 and south of Lowell) are mainly low and flat, except for a few sand ridges and dunes and were both once very marshy and had to be drained. The lowest point, at 585 feet (178 m),<sup>[7]</sup> is along the Lake Michigan shoreline.

The central part of the county is higher and hillier. As you travel south from the low and relatively flat lake plain in the northern part of the county, the land gradually rises in elevation until the peak of the Valparaiso Moraine. The highest point, at 801 feet (244 m),<sup>[6]</sup> is in northeastern Winfield Township near 109th Street and North Lakeshore Drive in Lakes of the Four Seasons. From here the land descends south into the Kankakee Outwash Plain until the Kankakee River is reached.

The geographic center of Lake County is approximately 200 feet (60 m) northwest of Burr Street and West 113th Avenue in Center Township

- Ross
- Southeast Grove

# Townships

[edit]

The 11 townships of Lake County, with their populations as of the 2020 Census, are:

- Calumet – 91,970

- Cedar Creek – 12,725
- Center – 38,630
- Eagle Creek – 1,719
- Hanover – 18,214
- Hobart – 40,652
- North – 156,686
- Ross – 48,529
- St. John – 68,972
- West Creek – 7,676
- Winfield – 12,927

## **Economy**

[edit]

Despite the decline of heavy industry, manufacturing was still the largest employment sector in Lake County in 2010 with over 45,000 workers employed, followed closely by healthcare and social assistance at 44,000 workers, public administration at 40,000 workers, retail trade at 37,000 workers, accommodation and food services at 25,000 workers, and construction at 15,000 workers.<sup>[18]</sup>

Lake County's GDP in 2010 was measured at nearly \$25 billion. Manufacturing was also the largest sector of the economy in economic terms, contributing over \$5.8 billion to the county's GDP in 2010. It was followed by healthcare and social assistance at \$2.6 billion, public administration at \$2.5 billion, and retail trade at \$1.9 billion. While Lake County's average income was approximately 24% higher than the national average in 1978, in 2010 Lake County had fallen significantly behind the United States as a whole, with average income being approximately 12.9% lower. The national average surpassed Lake County sometime around 1986.

Businesses with the largest number of employees in the county are:<sup>[20]</sup>

- Americall Group, Inc. – Hobart
- Ameristar Casino – East Chicago

- BP Whiting Refinery – Whiting
- Canadian National Railway – Whiting
- Cargill – Hammond
- Cleveland-Cliffs Indiana Harbor Works – East Chicago
- Community Hospital – Munster
- Franciscan Alliance, Inc. – *locations throughout the region*
- Franciscan Health Hammond – Hammond (*closed*)
- Hard Rock Casino Northern Indiana – Gary
- Horseshoe Casino – Hammond
- Majestic Star Casino – Gary (*closed*)
- Methodist Hospitals Northlake Campus – Merrillville
- NiSource – Merrillville
- Radisson Hotel at Star Plaza – Merrillville (*closed*)
- St. Catherine Hospital – East Chicago
- St. Mary Medical Center – Hobart
- Times Media Company – Munster
- Unilever – Whiting
- U.S. Steel Gary Works – Gary

## Education

[edit]

## Public school districts

[edit]

The administration of public schools in Lake County is divided among 16 corporations and governing bodies,<sup>[21]</sup> more than any other Indiana county.<sup>[22]</sup>

- Crown Point Community School Corporation – Center and Winfield townships
- Gary Community School Corporation – City of Gary
- Griffith Public Schools – Town of Griffith

- Hanover Community School Corporation – Hanover Township
- Lake Central School Corporation – St. John Township
- Lake Ridge Schools Corporation – unincorporated Calumet Township
- Lake Station Community Schools – City of Lake Station
- Merrillville Community School Corporation – Ross Township
- River Forest Community School Corporation – Town of New Chicago and some portions of adjacent communities
- School City of East Chicago – City of East Chicago
- School City of Hammond – City of Hammond
- School City of Hobart – City of Hobart within Hobart Township
- School City of Whiting – City of Whiting
- School Town of Highland – Town of Highland
- School Town of Munster – Town of Munster
- Tri-Creek School Corporation – Cedar Creek, Eagle Creek and West Creek townships

## Private schools

[edit]

Elementary and secondary schools operated by the Diocese of Gary:

- Andrean High School, Merrillville (9–12)
- Aquinas School at St. Andrew's, Merrillville (PK–8)
- Bishop Noll Institute, Hammond (9–12)
- Our Lady of Grace, Highland (PK–8)
- St. Casimir, Hammond (PK–8)
- St. John Bosco, Hammond (PK–8)
- St. John the Baptist, Whiting (PK–8)
- St. John the Evangelist, St. John (PK–8)
- St. Mary, Crown Point (PK–8)
- St. Mary, Griffith (PK–8)

- St. Michael, Schererville (PK–8)
- St. Stanislaus, East Chicago (PK–8)
- St. Thomas More, Munster (PK–8)

Other parochial and private schools:

- St. Paul's Lutheran School, Munster (PK–8)
- Trinity Lutheran School, Crown Point (PK–8)
- Trinity Lutheran School, Hobart (PK–8)

## Colleges and universities

[edit]

- Calumet College of St. Joseph
- Hyles–Anderson College
- Indiana University Northwest
- Ivy Tech Community College
- Purdue University Northwest<sup>[23]</sup>
- University of Phoenix
- Indiana Wesleyan University

### Public libraries

[edit]

The county is served by seven different public library systems:

- Crown Point Community Library has its main location with a branch in Winfield.<sup>[24]</sup>
- East Chicago Public Library has its main location and the Robert A. Pastrick branch.<sup>[25]</sup>
- Gary Public Library has its main location, the Gary Public Library and Cultural Center, and the Kennedy and Woodson branches.<sup>[26]</sup>
- Hammond Public Library<sup>[27]</sup>

- Lake County Public Library has its main location in Merrillville as well as Cedar Lake, Dyer–Schererville, Griffith–Calumet Township, Highland, Hobart, Lake Station–New Chicago, Munster and St. John branches.<sup>[28]</sup>
- Lowell Public Library has its main location with branches in Schneider and Shelby.<sup>[29]</sup>
- Whiting Public Library<sup>[30]</sup>

## Hospitals

[edit]

- Community Hospital, Munster – 454 beds<sup>[31]</sup>
- Franciscan Health Crown Point, Crown Point – 203 beds (*Level III Trauma Center*)<sup>[31]</sup><sup>[32]</sup><sup>[33]</sup>
- Franciscan Health Dyer, Dyer – 223 beds<sup>[31]</sup><sup>[32]</sup>
- Franciscan Health Munster, Munster – 63 beds<sup>[31]</sup><sup>[32]</sup>
- Methodist Hospitals – 536 beds<sup>[31]</sup>
  - Northlake Campus, Gary
  - Southlake Campus, Merrillville
- NW Indiana ER and Hospital, Hammond – 6 beds<sup>[31]</sup>
- St. Catherine Hospital, East Chicago – 216 beds<sup>[31]</sup>
- St. Mary Medical Center, Hobart – 215 beds<sup>[31]</sup>
- UChicago Medicine Crown Point, Crown Point – 8 beds (*opening April 2024*)<sup>[34]</sup>

## Media

[edit]

*The Times*, based in Munster, is the largest daily newspaper in Lake County and Northwest Indiana and the second largest in the state. Lake County is also served by the *Post-Tribune*, a daily newspaper based in Merrillville.

Lakeshore Public Television operates WYIN-TV Gary on channel 56 and is the local PBS station in the Chicago television market.

These eight broadcast radio stations serve Lake County and are part of the Chicago market:

- WJOB (1230 AM) – Hammond
- WWCA (1270 AM) – Gary
- WLTH (1370 AM) – Gary
- WLPR (89.1 FM) – Lowell
- WRTW (90.5 FM) – Crown Point
- WPWX (92.3 FM) – Hammond
- WXRD (103.9 FM) – Crown Point
- WZVN (107.1 FM) – Lowell

### Climate and weather

Satellite imagery of Lake County, IN

In recent years, average temperatures in Lowell have ranged from a low of 14.4 °F (–9.8 °C) in January to a high of 83.8 °F (28.8 °C) in July, although a record low of –29 °F (–34 °C) was recorded in December 1989 and a record high of 104 °F (40 °C) was recorded in June 1988.

Average monthly precipitation ranged from 1.75 inches (44 mm) in February to 4.69 inches (119 mm) in June. Temperatures at or below 0 °F (−18 °C) occur on average 11 days annually and exceed 90 °F (32 °C) degrees on 14 days.<sup>[35]</sup> In winter, lake-effect snow increases snowfall totals compared to the areas to the west.<sup>[36]</sup> In spring and early summer, the immediate shoreline areas sometimes experience lake-breeze that can drop temperatures by several degrees compared to areas further inland.<sup>[37]</sup> In summer, thunderstorms are common, occurring an average 40–50 days every year,<sup>[38]</sup> and on about 13 days, these thunderstorms produce severe winds.<sup>[39]</sup>

## Government

[edit]

See also: Government of Indiana

The county government is a constitutional body, and is granted specific powers by the Constitution of Indiana, and by the Indiana Code.

**County Council:** The county council is the legislative branch of the county government and controls all the spending and revenue collection in the county. Representatives are elected from county districts. The council members serve four-year terms. They are responsible for setting salaries, the annual budget, and special spending. The council also has limited authority to impose local taxes, in the form of an income and property tax that is subject to state level approval, excise taxes, and service taxes.<sup>[40]</sup><sup>[41]</sup>

**Board of Commissioners:** The executive body of the county is made of a board of commissioners. The commissioners are elected county-wide, in staggered terms, and each serves a four-year term. One of the commissioners, typically the most senior, serves as president. The commissioners are charged with executing the acts legislated by the council, collecting revenue, and managing the day-to-day functions of the county government.<sup>[40]</sup><sup>[41]</sup>

**Court:** The county maintains a small claims court that can handle some civil cases. The judge on the court is elected to a term of four years and must be a member of the Indiana Bar Association. The judge is assisted by a constable who is also elected to a four-year term. In some cases, court decisions can be appealed to the state level circuit court.<sup>[41]</sup>

**County Officials:** The county has several other elected offices, including sheriff, coroner, auditor, treasurer, recorder, surveyor, and circuit court clerk Each of these elected officers serves a term of four years and oversees a different part of county government. Members elected to county government positions are required to declare party affiliations and to be residents of the county.<sup>[41]</sup>

## County elected officials

[edit]

*Board of Commissioners:*<sup>[3]</sup>

- Kyle W. Allen, Sr. (D, 1st)☐
- Jerry J. Tippy (R, 2nd)
- Michael C. Repay (D, 3rd)

- David Hamm (D, 1st)
- Ronald Brewer (D, 2nd)
- Charlie Brown (D, 3rd)
- Pete Lindemulder (R, 4th)
- Christine Cid (D, 5th)
- Ted F. Bilski (D, 6th)☐
- Randy Niemeyer (R, 7th)

*Elected Officials:*<sup>[3]</sup>

- Assessor: LaTonya Spearman (D)
- Auditor: Peggy Katona (D)
- Clerk: Michael Brown (D)
- Coroner: David Pastrick (D)
- Prosecutor: Bernard A. Carter (D)
- Recorder: Gina Pimentel (D)
- Sheriff: Oscar Martinez, Jr. (D)<sup>[42]</sup>
- Surveyor: Bill Emerson, Jr. (D)
- Treasurer: John Petalas (D)

☐ *President*

### Politics

[edit]

While the state of Indiana is strongly Republican, having voted Republican in every election since 1964 (except in 2008), Lake County has long been a Democratic stronghold due to being part of the Chicago metropolitan area. It has given pluralities or majorities to Democrats in

every presidential election since 1932 with the exceptions of 1956 and 1972. Like the rest of the Rust Belt, however, Lake County has recently trended Republican, with Donald Trump scoring the highest percentage of the vote since 1972 in the 2024 presidential election.

Lake is part of Indiana's 1st congressional district, which is held by Democrat Frank J. Mrvan.<sup>[43]</sup> In the State Senate, Lake is part of the 1st, 2nd, 3rd and 6th districts, which are held by three Democrats and one Republican. In the Indiana House of Representatives, Lake is part of the 1st, 2nd, 3rd, 11th, 12th, 14th, 15th and 19th districts, which are held by four Democrats and four Republicans.

United States presidential election results for Lake County, Indiana<sup>[44]</sup>

| Year | Republican |        | Democratic |        | Third party(ies) |        |
|------|------------|--------|------------|--------|------------------|--------|

## 2008 presidential primary

[edit]

In the 2008 Democratic presidential primary on May 6, 2008, Lake County was one of the last counties to report results.<sup>[45]</sup> Lake County had reported no results at 11 p.m. ET,<sup>[46]</sup> and at midnight ET, only 28% of Lake County's vote had been reported.<sup>[47]</sup> A large number of absentee ballots and a record turnout delayed the tallies, and polls closed an hour later than much of the state because Lake County is in the Central Time Zone.<sup>[46]</sup> Early returns showed Senator Barack Obama leading by a potentially lead-changing margin, leaving the race between Senator Hillary Clinton and Obama "too close to call" until final tallies were reported.

## Crime

The NWI Times reported that over 800 registered sex offenders live in Lake and Porter Counties of Indiana in 2021.<sup>[48]</sup>

## Culture and contemporary life

[edit]

# Entertainment and the arts

[edit]

- Northwest Indiana Symphony Orchestra, concerts held at Living Hope Church – Merrillville
- Theatre at the Center, located at the Center for Visual and Performing Arts – Munster

# Major attractions

[edit]

- Ameristar Casino – East Chicago
- Horseshoe Casino – Hammond
- Majestic Star Casino – Gary
- Majestic Star Casino II – Gary
- Pierogi Fest – Whiting
- Southlake Mall – Hobart
- Three Floyds Brewing – Munster

# Professional sports teams

[edit]

- Gary SouthShore RailCats, an American Association professional baseball team, play their games at U.S. Steel Yard in Gary.

## Recreation

[edit]

List of parks and recreational facilities – Lake County Parks and Recreation

- Bellaboo's Play and Discovery Center – Lake Station
- Buckley Homestead – Lowell
- Cedar Creek Family Golf Center – Cedar Lake
- Deep River County Park – Hobart
- Deep River Waterpark – Crown Point
- Gibson Woods Nature Preserve – Hammond
- Grand Kankakee Marsh – Hebron
- Lake Etta – Gary
- Lemon Lake – Crown Point
- Oak Ridge Prairie & Oak Savannah Trail – Griffith
- Stoney Run County Park – Hebron
- Three Rivers County Park – Lake Station
- Turkey Creek Golf Course – Merrillville
- Whihala Beach – Whiting

List of recreational facilities – Indiana Dunes National Park

- Calumet Prairie State Nature Preserve – Lake Station
- Hobart Prairie Grove – Hobart

- Hoosier Prairie State Nature Preserve – Griffith
- Paul H. Douglas Center for Environmental Education – Gary

### Demographics

[edit]

| Historical population |                         |      |        |
|-----------------------|-------------------------|------|--------|
| Census                | Pop.                    | Note | %±     |

As of the 2010 United States Census, there were 496,005 people, 188,157 households, and 127,647 families residing in the county.<sup>[57]</sup> The population density was 994.1 inhabitants per square mile (383.8/km<sup>2</sup>). There were 208,750 housing units at an average density of 418.4 per square mile (161.5/km<sup>2</sup>).<sup>[19]</sup> The racial makeup of the county was 64.4% white, 25.9% black or

African American, 1.2% Asian, 0.3% American Indian, 5.8% from other races, and 2.4% from two or more races. Those of Hispanic or Latino origin made up 16.7% of the population.<sup>[57]</sup> In terms of ancestry, 16.1% were German, 11.1% were Irish, 9.6% were Polish, 5.4% were English, 4.8% were Italian and 3.7% were American.<sup>[58]</sup>

Of the 188,157 households, 34.3% had children under the age of 18 living with them, 44.7% were married couples living together, 17.4% had a female householder with no husband present, 32.2% were non-families, and 27.4% of all households were made up of individuals. The average household size was 2.60 and the average family size was 3.19. The median age was 37.4 years.<sup>[57]</sup>

The median income for a household in the county was \$47,697 and the median income for a family was \$58,931. Males had a median income of \$50,137 versus \$33,264 for females. The per capita income for the county was \$23,142. About 12.2% of families and 16.1% of the population were below the poverty line, including 25.3% of those under age 18 and 8.4% of those age 65 or over.<sup>[59]</sup>
